# **DRAW WIRE MECHANICS**

## SX MECHANICS SERIES

## **Key-Features:**

- Draw wire mechanics for encoder assembly
- Fast and easy encoder mounting
- Measurement ranges from 500 mm to 42.5 m
- Linearity up to ±0.02 % of full range (with encoder)
- Optional high corrosion protection
- Temperature range -20...+85 °C (optional -40 °C)
- High dynamics
- Customised versions available

## TECHNICAL DRAWING SX120 MECHANICS

## **TECHNICAL DRAWING SX135 MECHANICS**

## **TECHNICAL DRAWING SX135 MECHANICS**

 $^{\scriptscriptstyle 1)}$  Dimensions are subject to a tolerance of ±2 mm.

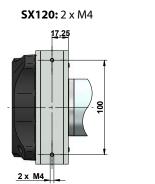

### **MOUNTING OPTIONS SX50, SX80 AND SX120**

#### Mounting standard rope outlet, rope outlet sideways top (S1)

The sensor is usually installed by using the regular mounting plate. By disassembling the mounting plate, there are threads in the sensor housing for alternative installation:

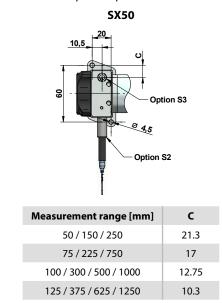

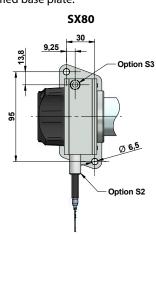

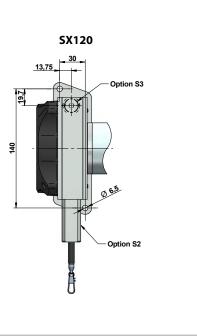

## **MOUNTING OPTIONS SX50, SX80 AND SX120**

#### Mounting rope outlet sideways bottom (S2), rope outlet bottom (S3)

Sensors with option rope outlet S2 and S3 have a modified base plate:

## **MOUNTING OPTIONS SX135**

#### 1. by using the grooves in the sensor housing

The included slot nuts can be easily inserted into the grooves of the sensor housing. The slot nuts have a metric M6 thread.

Each sensor with a measurement range of 20 m or lower is delivered with two slot nuts. Each sensor with a measurement range of 25 m or greater is delivered with four slot nuts.

#### 2. by angle clamp brackets

Note:

The angle clamp brackets feature a bore for M6 screws to fix it on a plate / slab or a profile.

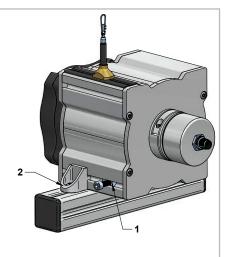

Each sensor with a measurement range of 20 m or lower is delivered with two brackets. Each sensor with a measurement range of 25 m or greater is delivered with four brackets.

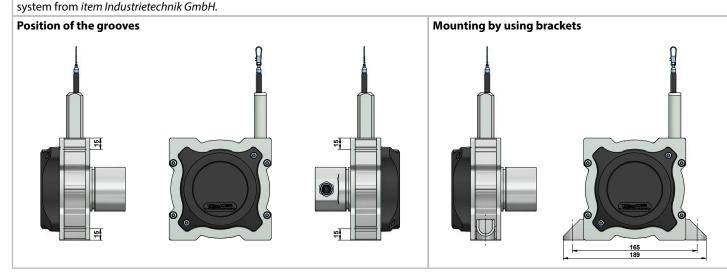

The grooves of the sensor housing, the slot nuts and

brackets are compatible to the aluminium building kit

| Option  | Order code | Descripti   | ion   |
|---|------------|---|---|
| Improved linearity  | L02        | Improved linearity 0.02 %. Encoder with min. 2000 pu  | lses/revolution is required.                          |
| Changed rope outlet                                       | S1, S2, S3 | Standard: rope outlet at the top<br>S1: rope outlet sideways at the top<br>S2: rope outlet sideways at the bottom<br>S3: rope outlet on the bottom                      | Standard<br>Option 51<br>Option 52<br>Option 52       |
| Synthetic wire rope                                       | COR        | Synthetic wire rope, made out of abrasion resistant ar  | nd enhanced Coramid.                                  |
| Rope fixation by M4 thread                                | M4         | Optional, pivoted rope fixation with screw thread<br>M4, length 22 mm. Ideal for attachment to through<br>holes or thread holes M4.                                     | rope clip with drill<br>protection (standard)         |
| Rope fixation by eyelet                                   | RI         | The end of the wire rope is equipped with a eyelet<br>instead of a rope clip.<br>Inside diameter 20 mm  |   |
| Rope fixation with cylindrical pin and<br>M6 through bore | ZH, ZR     | ZH: cylindrical pin with M6 through bore<br>ZR: cylindrical pin with M6 through bore and carbine<br>ring  |   |
| Corrosion protection                                      | СР         | Includes a V4A wire rope, stainless steel bearings a<br>HARTCOAT® coated. This coating is a hard-anodic oxida<br>aggressive media (e. g. sea water) with a hard ceramic | ation that protects the sensor from corrosion by      |
| Increased temperature range low                           | T40        | Special components and a low temperature grease m to +85 °C) possible.  | hake a working temperature down to -40 $^\circ$ C (up |

#### ACCESSORIES **Deflection pulley - UR2** ø 44 The rope must be extracted from the sensor vertically. The maximum variation from the vertical is 3°. A deflection pulley allows a change in the direction of the wire rope. Several pulleys may be used. The rope clip must not be guided over the deflection pulley. Suitable for standard wire rope diameter 0.5 mm. Material foot: anodised aluminium 12,5 Material rope wheel: POM-C by 2 hexagon socket or countersunk screws M6, vertical or Mounting: horizontal mounting possible. Ball bearings: with special low temperature grease and RS-sealing. **Temperature:** -40...+80 °C Õ **Rope extension - SV**

For bridging a greater distance between the measuring target and the sensor a rope extension can be applied. The rope clip must not be guided over the deflection pulley.

30

Please specify the length needed in your order (XXXX). The minimum length is 150 mm:

SV1-XXXX: rope extension (150...4995 mm)

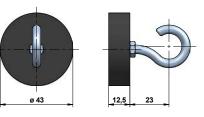

SV2-XXXX: rope extension (5000...19995 mm)

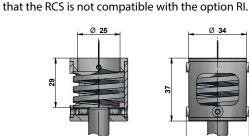

SV3-XXXX: rope extension (20000...40000 mm)

#### Magnetic clamp - MGG1

**Rope cleaner - RCS** Use the magnetic clamp to quickly attach the rope to metallic objects without Use the RCS rope cleaner to remove dirt from the measuring any assembly time. A rubber coating provides gentle contact (e.g. on varnished rope of the sensor. Please note that the maximum surfaces) and prevents from slipping due to vibration. measuring range of the sensor is reduced by 29 mm and

The magnet consists of a neodym core for an increased adhesive force of 260 N. The hook makes it easy to attach the rope clip.

#### **ACCESSORIES**

| UR2      | deflection pulley (for rope diameter 0.5 mm) | RCS-SX50 <sup>1)</sup> rope cleaner for SX50                               |
|----------|--|--|
| MGG1     | magnetic clamp                               | RCS-SX80 <sup>1)</sup> rope cleaner for SX80 ranges 1000, 1500 and 2000 mm |
| SV1-XXXX | rope extension (150 mm up to 4995 mm)        | RCS-SX80-32 <sup>1)</sup> rope cleaner for SX80 ranges 2500 and 3000 mm    |
| SV2-XXXX | rope extension (5000 mm up to 19995 mm)      | RCS-SX120 <sup>1)</sup> rope cleaner for SX120                             |
| SV3-XXXX | rope extension (20000 mm up to 40000 mm)     | RCS-SX135-8 <sup>1)</sup> rope cleaner for SX135 range up to 8 m           |
|          |  | RCS-SX135 <sup>1)</sup> rope cleaner for SX135 range 10 m or more          |

<sup>1)</sup> please note that the maximum measuring range is reduced by 29 mm when using the rope cleaner. The RCS is not compatible with the option RI.
